

PATIENT UNDER 18 YEARS OF AGE

All children need a healthy spinal column free from subluxations (nerve interference). It's important because an unhealthy spine can interfere with the normal function of the nervous system and may cause health problems now and later in life. Thank you for insuring your child's spinal health with chiropractic care. It's the best gift you can give to your child.

CONFIDENTIAL PATIENT INFORMATION

Before you begin, please inform the front desk if your child has been in an auto accident or if he/she has had any other type of accident.

Please Print Clearly.

Today's Date: ___/___/___
Last Name: _____ First Name: _____
Address: _____

HEALTH HISTORY

Has your child had previous chiropractic care? Yes No Where? _____
List Child's Health Problems and Complaint(s): _____
List any accident(s) major or minor: _____

At "Back on Track Family Chiropractic", by means of a chiropractic adjustment, nerve interference (subluxations) are corrected or reduced, allowing the proper transmission of nerve pathways so that every part of the body may have a proper nerve supply at all times. This allows the innate healing ability of the body to work at maximum efficiency. At "Back on Track Chiropractic" we do not diagnose or claim to cure disease.
